- A**BBE, R., Infection of omentum stump after operations for hernia, 321; Nephrectomy for sarcoma of kidney, 68; Technique of intestinal anastomosis, 322.
- Abdominal cavity, Multiple echinococci, 241; Tumors, Diagnosis of, 337.
- Abscess, Spinal, Treatment of, 502.
- Acromegaly, Case of, 700.
- Actinomycosis of the intestinc, 230; of the lung, 229.
- Aged patients, Laparotomy in, 630.
- Agnew, D. H., Adams' life of, Review, 635.
- Air-passage and cut-throat wounds closed by immediate suture, 490; Air to dilate bladder in suprapubic cystotomy, 667.
- American Surgeon, Evolution of, 343.
- American Surgical Association, Programme for 1893 meeting, 381; Transactions for 1892, Review of, 255.
- Amputation of arm in an hæmophiliac, 499; Hip-joint, Contributions to study of, 1.
- Anæsthesia, Vomiting after, Relieved by compression of the phrenic nerve, 611.
- Anastomosis, Intestinal, Technique of, 322.
- Anchylosis, Bilateral Osseous, of Temporomaxillary articulation, Resection of the condyles by Bottini's method, 327.
- Aneurism, Arterio-venous, of the axillary artery and vein of fourteen years' duration, 37; of abdominal aorta simulating a solid tumor, 314; of external iliac artery apparently cured by needling, 312; of four large arteries successfully treated by ligatures, 369.
- Anthrax, Experimental contribution to the question of treatment of, 86.
- Antiseptics, Local influence of some on the brain, 612.
- Aorta, Aneurism of abdominal, simulating a solid tumor, 314.
- Appendicitis, Group of cases of, 197; Infective, 749.
- Appendicular Colic, 672.
- Appendix, Ileo-cæcal, 88; Vermiformis, Anatomy of, 620.
- Arsenic in cancer of the skin, 612.
- Arthrotomy for dislocated hip-joint, 586.
- Asepsis in laparotomy, Mironow on the question of, 76.
- Auto-Inoculation, Immunity by, from effects of septic infection, 299.
- Axillary suppuration of unusual severity treated by extensive excision of the inflamed tissues, 189.
- B**ACON, J. B., New method of treating non-malignant strictures of the rectum by transplantation of intestine, 576.
- Ballotement, False renal, in subhepatic tumors, 622.
- Bandages, Immobilizing, Dangers of, 502.
- BANGS, L. B., Perineal lithotrity, with some remarks on dilatation of the prostate, 442.
- BARTON, J. M., Trifacial neuralgia, 714.
- Bassini's operation for radical cure of hernia, 619.
- BAXTER, G. A., New method of operating for radical cure of hernia, 263.
- BIGGS, H. M., Appendicitis, 204.
- Biliary colic due to adhesions, 333.
- BINNIE, J. F., Appendicular colic, 672; Gradual auto-inoculation as a factor in the production of immunity from the effects of septic infection, 299.
- Bladder, Suprapubic drainage of, Mental symptoms after, 65, 262.

- Blood-clot, Moist, Healing under, in accidental wounds, 276.
- Bone, Decalcified, Implantation of, 107; suture without drilling, 627.
- Bones and Joints, Tubercular disease of, complicated with suppuration, Management of, 423, 498.
- BOOTH, ARTHUR, and B. FARQUHAR CURTIS, Report of a case of tumor of the left frontal lobe of the cerebrum, 127.
- Bottini's method of resection of condyles for bilateral osseous ankylosis of temporomaxillary articulation, 227.
- Bowel and stomach surgery at Heidelberg, 730; Proper technique of vegetable plates in, 147.
- Bowels, Tuberculous strictures and their treatment, 98.
- Brain, Abscess after otorrhea, successfully operated on, 613; Local influence of some antiseptics on, 612.
- BRIDGON, C. K., Case of jejunostomy for inoperable cancer of the stomach, 310; Cholelithotomy, 206; Diagnosis of abdominal tumors, 339; Group of cases of appendicitis, 197; Ileus from twist of bowel caused by axial rotation of a mesenteric tumor, 63; Infection of omental stump after operations for hernia, 321; Intestinal obstruction, 341; Nephrectomy for Pyonephrosis, 318; Thyroidectomy, 207; Trephining for relief of Jacksonian epilepsy, following depressed fracture of skull, 329; Severe pharyngeal syphilitic stenosis relieved by operation after tracheotomy, 705.
- BRISTOW, A. T., Use of air to dilate the bladder in suprapubic cystotomy, 667.
- BRYANT, J. D., Appendicitis, 204; Biliary colic, 336; Case of large aneurism of external iliac artery apparently cured by needling, 312; Intestinal obstruction from Meckel's diverticulum, 342; The relations of the gross anatomy of the vermiform appendix to some features of the clinical history of appendicitis, 164.
- BULL, W. T., Accidents which may follow removal of portions of the omentum in operations for hernia, 269, 320; Observations on the mechanical and operative treatment of hernia at the Hospital for Ruptured and Crippled of New York, 527; Technique of intestinal anastomosis, 323.
- BURRELL, H. L., Contribution to the anatomy of congenital equinovarus, 393.
- CÆCUM and appendix, vermiformis, Anatomy of, 620; Cancer of and its extirpation, 371.
- Cancer, conveyed by contact, Case of, 369; Gniellot on contagion of, 212; of cæcum extirpated, 371; of lower jaw, Total excision of, 296; of œsophagus, gastrostomy for, 592; of rectum, Cases of excision of, 374, 503; of the sigmoid flexure, 61; of the skin, Arsenic in, 612; Spontaneous cure of, 611; Use and place of caustics in treatment of, 392.
- Carcinoma, Domain of the knife in treatment of, 397; Present state of knowledge as to, 478; of uterus, Supravaginal amputation of cervix, 504, 507; Some fallacies inherent in the parasitic theories of the etiology of, 599.
- Case of biliary colic of anomalous type, 336.
- Caustics, Use and place of, in treatment of cancer, 392.
- Cellulitis, prevesical, Idiopathic, 105.
- Cerebral abscess after otorrhea, successfully operated on, 613.
- Cerebrum, Report of a case of tumor of the left frontal lobe of, 127.
- Clavicle, Fracture of, producing pneumothorax, 615.
- Cholecystectomy, 334; Report of eight cases with remarks upon technique, 234.
- Cholelithiasis, Complications of, 639, 707.
- Cholelithotomy, 206.
- COLEY, W. B., Observations on the mechanical and operative treatment of hernia at the Hospital for Ruptured and Crippled of New York, 527.
- Colostomy and excision of cancer of sigmoid Flexure, 61.

Columbian period, Surgeons of the, 344.

Cranio-cerebral topography and its surgical application, 82.

Cranium, Case of very extensive and comminuted fracture ending in recovery, 226.

CURTIS, B. F., Complications of cholelithiasis, 707; Early recurrence following excision of malignant disease, 708; Report of case of removal of tumor from left frontal lobe of cerebrum, 127; Arthrotomy for old dislocations of hip-joint, 587.

Cystotomy, Supra-pubic, after dilatation of bladder with air, 667.

DANA, Text-Book of Nervous Diseases, Review of, 118.

DAWBARN, R. H. M., Excision of elbow, 704; Early recurrence following excision of malignant disease, 708; Vegetable plates in bowel and stomach surgery, A discussion of the proper technique, 147.

DEAVER, JOHN B., on amputation at the hip-joint, 711; on comparative value of operations for relief of trifacial neuralgia, 711.

Diagnosis of abdominal tumors, 339.

Dislocation of the patella, Rotary, 106.

DENHAM, T., A method for obtaining a skin flap from the scalp and a permanent buried vascular pedicle for covering defects of the face, 677.

Dust, Surgical significance of, 464.

ECHINOCOCCI, Multiple, In abdominal cavity, 241; of liver, 585.

Ecphyaditis, Infective, 749.

Elbow, Excision of, 704.

Empyema Thoracis, Statistics of twenty-three cases of, 370; Study of seventeen cases of, 410; Operative treatment of, 615.

Enterectomy, Enterorrhaphy for strangulated femoral hernia involving only part of circumference of bowel, Recovery, 232.

Epididymitis, Tuberculous, 430.

Epilepsy, Jacksonian, following depressed fractures of the skull treated by trephining, 329, 332; Trephining for, 91.

Epithelioma conveyed by contact, 369.

Equino-varus, Congenital, Anatomy of, 293.

Excision of tarsus and portion of the metatarsus, 104.

Expert examination and testimony in railway cases, 41.

Exostosis, Case of multiple, 251.

FACE, Defects of, covered by a skin flap from the scalp with a permanent buried vascular pedicle, 677.

Femoral hernia, Radical cure of, 618.

Flat-foot, Notes on forcible over-correction in the treatment of, 16.

Fibro-plastic white swelling of the knee, 109.

Fistula, Recto-vaginal, 113.

Foot, Forward and outward dislocation of, 497.

Foot, Morton's painful affection of the, 680, 718.

FOWLER, G. R., On the operative treatment of hernia, 28.

Fractured bones healed in deformity, 108.

Fracture of the cranium, Extensive and comminuted, ending in recovery, 227.

Fractures and dislocations, Review of, Hoffer on, 252.

Fractures, Method of treating compound, 140.

Fractures, Multiple, 716.

French Congress of Surgery, Programme for 1893 meeting, 382.

GANGRENE, Imminent in strangulated hernia, Treatment, 101.

Gangrenous hernia, Treatment, 102, 371, 619.

Gastro-enterostomy in two stages, 475.

German Surgical Society, Programme of Congress for 1893, 510.

Gerhardt on diseases of the placenta, Review of, 509.

GERSTER, A. G., Appendicitis, 203; Cholelithotomy, 207; Early recurrences following excision of malignant disease, 709; Old dislocation of hip-joint reduced by arthrotomy, 586.

GIBNEY, V. P., Cases of old dislocation of hip reduced by arthrotomy, 587.
Guelliot on the contagion of cancer, 212.

HÆMOPHILIAC, Amputation of arm in, 499.

HALSTED, W. S., The radical cure of inguinal hernia in the male, 542.
